8	1.09.9.2.70.7	Re-Baseline Plan for 50 Antennas Outer Configuration Plan Submitted	In Progress	01May05A	01May06	Re-Baseline Plan for 50 Antennas Outer Configuration Plan Submitted																																																																																																																																															
9	1.09.9.2.74.2	Review/Performance of Tests of Calibration Strategies on ATF Interferometer	Planned	02May07	30Jun07	02May2007 Review/Performance of Tests of Calibration Strategies on ATF Interferometer																																																																																																																																															
10	1.09.9.2.74.6	Tests of Dynamic Scheduling at ATF	Planned	01Jul07	15Jul07	01Jul2007 Tests of Dynamic Scheduling at ATF																																																																																																																																															
11	1.09.9.2.78.4	ICD 57 Site-Meteorology & SCIE-Weather Stations Draft	In Progress	01Jan05A	16Feb06	ICD 57 Site-Meteorology & SCIE-Weather Stations Draft																																																																																																																																															
12	1.09.9.2.80.3	Update to Front End to Develop Holography Electronics	Complete	26Jan06A	26Jan06A	Update to Front End to Develop Holography Electronics																																																																																																																																															
13	1.09.9.2.90.10	WVR Analysis	In Progress	01Jan05A	30Aug06	WVR Analysis																																																																																																																																															
14	1.09.9.2.90.12	Phase Correction Analysis	Planned	02May06	26Feb09	02May2006 Phase Correction Analysis																																																																																																																																															
15	1.09.9.2.90.14	Semi Transparent Vane Study	In Progress	01Jan05A	16Feb06	Semi Transparent Vane Study																																																																																																																																															
16	1.09.9.4.8	Site Characterization Verification & Analysis	Complete	01Jan05A	31Dec05A	Site Characterization Verification & Analysis																																																																																																																																															
17	1.09.9.6.16	Initial Science Support as Commissioning (OSF)	Planned	06Apr07	11Dec08	06Apr2007 Initial Science Support as Commissioning (OSF)																																																																																																																																															
18	1.09.9.6.18	Antennas Ready to Commission in Array (1-50)	Planned	01Nov08	31Aug12	Antennas Ready to Commission in Array (1-50)																																																																																																																																															
19	1.09.9.6.52	Antennas 6+ Science Verification/Demonstration Science	Planned	29Mar09	18Oct09	29Mar2009 Antennas 6+ Science Verification/Demonstration Science																																																																																																																																															
20	1.09.9.6.72	Early Science - Call for Proposals	Planned	28Mar09	28Mar09	28Mar2009 Early Science - Call for Proposals																																																																																																																																															
21	1.09.9.6.80	Early Science - Start	Planned	25Jan10	25Jan10	25Jan2010 Early Science - Start																																																																																																																																															
22	1.09.9.6.82	Early Science - 1-50	Planned	26Jan10	03Sep12	26Jan2010 Early Science - 1-50																																																																																																																																															
23	1.09.9.6.88	Start of Full Science Operations (50)	Planned	03Sep12	03Sep12	03Sep2012 Start of Full Science Operations (50)
